User Manual:

Unless the user manual of the devices you want to charge clearly states otherwise, proceed as follows:

Connect the end device to the USB charging port using a compatible USB-C cable; we recommend using the 3mk Protection cable. Plug the charger into a correctly installed and easily accessible power outlet. Charging progress will be displayed on your end device. Disconnect the end device from the charger if you want to stop charging or if the end device is fully charged. Then, unplug the charger from the power socket.

Warnings:

Protect the product from dirt, moisture, and overheating, and use it only in dry rooms. Do not drop the product or expose it to severe shocks. Do not use the product outside the power limits specified in the specifications. Do not modify the device in any way. Such actions void the warranty. Do not continue using the device if it becomes visibly damaged. Use the product only for its intended purpose. Store this product, like all electrical products, out of the reach of children! Do not use the product in direct proximity to heaters or other heat sources or in direct sunlight. This product is intended for indoor use only. Do not use the product in areas where the use of electronic devices is prohibited.

Warranty:

Improper use or incorrect placement of this product by users may result in a shortened lifespan or damage, and any resulting damages are not covered by the warranty or the manufacturer's liability. The warranty covers manufacturing defects and material defects. The manufacturer's warranty is 24 months.

Disposal and Recycling Information:

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated waste collection points after their operational life. This ensures that WEEE waste is recycled and processed in a manner that protects valuable materials and human health and the environment.
