

3mk Hardy Fusion Lens Protection™

Hybrid glass

User manual

EN

Product presentation:

3mk Hardy Fusion Lens Protection™ – a hybrid lens cover combining flexibility and hardness. It protects against scratches, cracks, and impacts while remaining invisible and not affecting photo quality. The set includes 4 pairs for convenience and spare use. Simple installation without bubbles and a fingerprint-resistant coating.

Set contents:

- 4 pairs of 3mk Hardy Fusion Lens Protection™
- Dry cloth
- User manual

Technical specifications:

Model name: 3mk Hardy Fusion Lens Protection™
Material: Hybrid glass
Hardness: 7H
Enhancement level: up to 300%
Thickness: 0.39 mm

Usage instructions:

Before starting installation: Ensure that the camera surface is clean, dry, and free from dust. Prepare the mounting accessories.

During application: Apply the hybrid glass in a clean, dust-free environment to avoid contamination. The hybrid

glass is flexible and crack-resistant, but do not bend it excessively to maintain a perfect fit. Place the glass precisely on the camera lens, aligning the openings and shape. Gently press the surface from the centre towards the edges to remove any air bubbles.

After installing the glass: Avoid excessive pressure on the edges, especially when carrying the phone without a protective case. Regularly check the condition of the protection – the hybrid glass does not shatter, but it may scratch. If worn out, it is worth replacing it to maintain the highest quality of the camera.

Procedure in case of damage: If replacement is necessary, slowly and gently remove the glass, starting from the edge. Dispose of the used glass according to local waste separation regulations.

Warranty:

Improper use or incorrect placement of this product by users may result in shortened lifespan or damage, and any resulting damages are not covered by the warranty or the manufacturer's liability. The warranty covers factory defects and material faults. The manufacturer's warranty is 24 months.

Information on disposal and recycling:

Dispose of the used product and packaging according to local waste separation regulations.
