

Hyper Car Charger 30W™

Charger

User manual

EN

Product presentation

The product provides fast and efficient charging. The PD port supports fast charging protocols such as Apple PD 20W, PPS, Samsung PPS, and the USB port allows for quick charging of devices such as Huawei. The product is compatible with various devices, including MP3/MP4 players, PSP, cameras, Huawei, Xiaomi, Samsung, Macbook, iPhone, iPad, and other portable digital devices. The product is made from fire-resistant metal and PC, with a copper head, giving it a stylish and attractive appearance.

Contents of the package:

1. Car charger
2. User manual

Specification

- Model name: 3mk Hyper Car Charger 30W™
- Input power: DC 12V-24V
- Output power: DC 5V
- USB-C output: max. PD 3.0 30W
- USB-A output: max. QC 3.0 30W
- USB-C + A output: max. 15W + 15W
- Material: Aluminium alloy + PC
- Connector type: USB Type C, USB Type A
- Operating temperature: 0-45°C

User manual:

1. Insert the charger into the car's cigarette lighter socket. The white LED will light up when the device is ready for use. If the LED does not light up, try reconnecting the charger and check if the electrodes are making contact.
2. Connect one end of the charging cable to the PD or USB port of the charger, and the other end to the device.
3. Ensure that the charging cable is properly connected and that the device is compatible with the charger.

Precautions:

Before using this product, please read the device's user manual. Warning: improper use will lead to product damage.

1. The product should not be stored in high-temperature areas, bright light, or strong magnetic fields; it should not be placed in fire or other unfavourable conditions, as this may cause burns or electric shock.
2. During charging, the power supply will generate heat, which should be considered a normal phenomenon; the product meets national 3C requirements; after fully charging the phone, the high temperature will gradually return to room temperature.

3. If overvoltage, overcurrent, or overheating occurs during charging, to avoid damage, charging will automatically stop; once the conditions stabilise, charging will resume.
4. The product must not be disassembled, repaired, or modified by users themselves.
5. Do not touch the power supply with wet hands or submerge it in water or any other liquid.
6. Please do not use the power supply with products exceeding the power output range of this product, to avoid electric shock, burns, or damage to the device. **WARNING:** Failure to follow the above safety instructions may result in fire, electric shock, damage, or other injuries.

Warranty

Improper use or incorrect placement of this product by users may result in reduced lifespan or damage, and any resulting damage is not covered by warranty or subject to the manufacturer's liability. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 24 months.

Disposal and recycling information

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated waste collection points set up

by local authorities after their useful life has ended. This ensures that WEEE waste is recycled and processed in a way that protects valuable materials and safeguards human health and the environment.

Declaration of conformity

Hereby, 3mk Protection declares that the product complies with the relevant EU harmonisation legislation: 2014/53/EU. The full text of the declaration of conformity is available at the following website (3mk.global/manual).
