3mk inCharge® NightCharger™

Official User Manual, Warranty and Specifications –
Model: 3mk-IC-NC-2USBA-W

Balanced charging and full protection for your device. The 3mk inCharge® NightCharger™ is not just an ordinary charger. It is a technologically advanced system tailored for the nighttime regeneration of battery cells, supported by the SmartFlow OS™ processor and the ThermFill™ thermal composite.

1. Kit Contents:

- 3mk inCharge® NightCharger™ (1 pcs)
- User Manual (1 pcs)

2. User Manual and Recommendations:

1. **Connection to the mains:** Plug the charger into a power outlet with specifications compatible with the specification (100–240 V~).
2. **Connecting devices:** Connect the cables to USB-A1 and/or USB-A2 ports.
3. **Cable recommendations:** To fully utilize the potential of SmartFlow OS™ technology and ensure maximum safety, it is recommended to use original, certified 3mk Protection cables. Low-quality cables may limit the charging speed and safety.

4. **Smart charging:** The system will automatically adjust the voltage and current (supporting charging profiles such as Apple 2.4A and DCP 5V/1.5A) for optimal and safe power distribution.

3. Technical Specifications:

Model: 3mk-IC-NC-2USBA-W

Input Voltage: 100–240 V~, 50/60 Hz, 0.4 A Max

USB-A1 / A2 Output: 5.0 V – 2.4 A (12.0 W)

USB-A1 + A2 Output: 5.0 V – 2.4 A (12.0 W Max total)

Supported profiles: Apple 2.4A, DCP 5V/1.5A, SmartFlow OS™

4. Comprehensive Safety Guidelines:

IMPORTANT – READ CAREFULLY BEFORE USE

- **Purpose:** The device is intended for indoor use only in dry rooms (Protection Class II).
- **Moisture protection:** Keep the charger away from water, moisture, and other liquids. Do not touch it with wet hands.
- **Mechanical damage:** Do not use the device if the casing or plug pins are cracked or damaged.
- **Ventilation:** Do not cover the charger with bedding, blankets, or cushions during operation – ensure free airflow.

- **Modifications:** Do not attempt to disassemble or repair the device yourself. Any tampering may cause electric shock and void the warranty.

5. Warranty:

The manufacturer provides a 24-month warranty covering manufacturing defects and material faults. The warranty does not cover damages resulting from improper use, falls or flooding of the device. No separate, paper warranty card is required for warranty claims – the proof of purchase (receipt or invoice) serves as the basis for submitting a complaint.

6. Information on Disposal and Recycling:

This symbol on the product indicates that at the end of its service life, it should not be disposed of with household waste. It should be handed over to a selective collection point for electrical and electronic waste (WEEE), which helps protect natural resources and human health.

7. Compliance with European Union Standards:

The product meets the requirements of EU directives: LVD (2014/35/EU) regarding electrical safety, EMC (2014/30/EU) regarding electromagnetic compatibility, and RoHS (2011/65/EU) limiting the use of hazardous substances.
