

HARDY Lens Protection Pro™

Tempered glass

User manual

EN

Set contents:

- 1 piece of HARDY® Lens Protection Pro™
- Moistened cloth
- Dry cloth
- User manual

Technical specifications:

- Model name: HARDY® Lens Protection Pro™
- Material: tempered glass/ aluminium
- Hardness: 9H
- Thickness: 0.4 mm

Instructions for use:

1. Before starting installation: Ensure that the camera surface is clean, dry, and free from dust. Prepare mounting accessories.
2. During application: Install the glass in a clean, dust-free environment to avoid dirt getting between the glass and the camera. Do not bend the glass – it is pressure-resistant, but may break if flexed. Align the glass precisely to the edges of the camera to prevent detachment.
3. After installing the glass: Avoid excessive pressure on the edges, especially when carrying the phone without a protective case. Regularly check the condition of the glass to ensure there are no chips or cracks. Damaged glass

requires immediate replacement to avoid cutting your fingers.

4. Procedure in the event of damage: If the glass breaks, take care when removing it to avoid injury from shards. Dispose of used glass according to local regulations regarding glass waste.

Safety warnings

1. Do not modify the glass in any way. Such actions invalidate the warranty.
2. Use the product only for its intended purpose.
3. Packaging material should be disposed of in accordance with local regulations.
4. It is recommended to use the glass in conjunction with a protective case for full device protection.
5. Avoid extreme temperatures that may affect the adhesive used for attaching the glass (e.g., leaving the phone in sunlight).

Warranty

Improper use or incorrect placement of this product by users may result in a shortened lifespan or damage, and any resulting damage is not covered by the warranty or free of the manufacturer's liability. The warranty covers factory defects and material defects. The manufacturer's warranty is 12 months.

Information on disposal and recycling

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated waste collection points specified by local authorities at the end of their operational life. This ensures that WEEE waste is recycled and processed in a way that conserves valuable materials and protects human health and the environment.
