## **BikeGrip™ User Manual:**

### **A. Product Overview:**

The 3mk BikeGrip™ bicycle holder for smartphones has been designed with stable and secure mounting of your phone on the handlebars of a bicycle or scooter in mind. The rubber cushioning protects the phone from shocks. The holder is compatible with a wide range of smartphones and handlebars, ensuring a secure grip in any conditions.

### **B. The set includes:**

holder, mounting set, user manual, packaging.

### **C. Technical Specifications:**

- Model Name: 3mk BikeGrip™
- Model Number: 3MKBHBG002
- Colour: black
- Material: Plastic
- Suitable for: Smartphone
- Compatibility with handlebars: Ø 20–35 mm
- Compatibility with phones: 4.7"–7"

### **D. Instructions for Use:**

1. Choose a mounting location on the handlebars according to your preferences.

2. Fit the supplied pads according to the diameter of your handlebars.

3. Place the clamp with the appropriate pad and tighten the screw until the holder is securely mounted.

4. Adjust the holder to your desired position and check its stability – by moving it, make sure there are no loose parts.

5. Place the smartphone in the holder, ensuring that its edges are securely gripped by the holder's arms. Then adjust the height of the phone's position.

6. Use the knob on the right side to secure the phone. Check whether the phone is securely held and there are no loose parts.

### **E. Safety:**

- **Correct mounting on handlebars:** The clamp must be matched to the diameter of the handlebars using the appropriate rubber pads. It should be tightened sufficiently so that there are no loose parts during handling.
- **Phone security:** The securing screw on the right side should be tightened so that the phone is securely installed without any looseness.
- **Grip stability:** Before each trip, ensure that the holder's arms are firmly clamped on all sides of the smartphone, so that it cannot be easily removed.

- **Periodic check:** The fastening mechanism may loosen due to vibrations, so it is essential to periodically check that all connections are still "tight and secure."

### **F. Warranty:**

Improper use or incorrect placement of this product by users may result in shortened life or damage, and any resulting damage is not covered by the warranty or exempt from the manufacturer's liability. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 24 months.
