Product Presentation

incharge®Align 25W™ marks a new era in wireless charging. This fully WPC-certified charger utilizes the latest Qi2.2 standard, achieving groundbreaking power of 25W, surpassing standard wireless solutions. Its premium aluminum construction, combined with precise magnetic alignment not only guarantees perfect smartphone positioning but also optimal heat dissipation, ensuring stable charging and prolonging battery life. The minimalist design, high-quality nylon braided integrated USB-C cable, and official WPC certification provide a guarantee of safety, compatibility, and compliance with standards, offering ultra-fast and stable charging while fully exploiting the capabilities of the latest Qi2.2 standard.

Package Contents:

1. Wireless charger
2. Integrated USB-C cable
3. User manual

Specification:

- Model name: incharge®Align 25W™
- Model number:

White: ICWPQI2.2W

Black: ICWPQI2.2B

- Input power: 5 V – 3 A / 9 V – 3 A / 15 V – 2
- Output power: up to 15 V
- Operating frequency: 100KHz-205KHz
- Transmission range: ≤8mm
- Output current: 2A
- Charging efficiency: ≤75%
- Material: Aluminum + PC + Nylon
- Connector type: USB-C
- Compatibility: Devices with MagSafe & Qi technology
- Protocol compliance: Qi 2.2 / Magnetic Power Profile (MPP)

User Manual

1. Connect the charger to a USB-C power adapter with a minimum power of 30W.
2. Place the charger on a flat, stable surface.
3. Center the smartphone on the charger – the magnet will automatically align it in the right place and charging will begin.
4. After charging is complete, remove the phone from the charger.

Precautions

1. Do not use the charger in damp places or near heat sources.
2. Do not cover the charging surface while in use.

3. Avoid using with cases that have metal components or magnetic cards.
4. Use with original 3mk USB-C power adapters of ≥ 30W.
5. Do not disassemble the device or interfere with its electronics.
6. Clean with a soft, dry cloth – do not use solvents or detergents.
7. Store at room temperature, away from dust and moisture.

Usage Tips

1. For best performance, use with the original MagSafe case
2. The device may get slightly warm during charging – this is normal.
3. If charging does not start automatically, check the device's position on the magnets.

Warranty

Improper use or incorrect placement of this product by users may result in reduced lifespan or damage, and any resulting damage is not covered by warranty or is the manufacturer's responsibility. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 24 months.

Disposal and Recycling Information

This symbol on the product, battery, documentation or packaging indicates that products and batteries should be handed over to designated waste collection points established by local authorities after the end of their service life. This ensures that WEEE waste is recycled and processed in a way that protects valuable materials and safeguards human health and the environment.

Declaration of Conformity

Hereby, 3mk Sp. z o.o. declares that this product is in compliance with the relevant EU harmonization legislation 2011/65/EU. The full text of the Declaration of Conformity is available at the following website (3mk.global/manual).
