

Double Headrest Holder™

Phone/tablet holder

User manual

EN

Product presentation:

3mk Double Headrest Holder™ is a device compatible with devices from 4.7 to 12.9 inches, offering an adjustable mounting width from 480 to 800 mm. It is made of powder-coated black aluminium. The holder allows for repositioning for optimal user comfort. It is ideal for children in the back seats, enabling them to watch cartoons at an appropriate distance and position the device in a convenient place.

Set contents:

- 3mk Double Headrest Holder™
- User manual

Features:

- Universal: fits devices with a diagonal of 4.7 – 12.9 inches
- Aluminium coated with a layer of black powder paint
- Adjustable width: 480 – 800 mm
- Ability to reposition the holder for optimal user comfort

Technical specification:

Weight: 306 g

Compatibility with devices: 4.7–12.9"

Mounting width: 480 – 800 mm

Mounting type: For headrest supports

Colour: Black

Material: Aluminium / ABS / PC / Silicone

Usage instructions:

- Attach the holder to the support using the ball joint. Slightly tighten the screw.
- Unlock the levers on both sides, then attach the double hooks to the headrest rods located between the seats. Ensure they are subsequently locked in place.

- Place your device in the holder, ensuring that it is securely and safely mounted.
- Adjust the viewing angle by turning the adapter knob to achieve optimal viewing comfort.

Warranty:

Incorrect use or improper placement of this product by users may result in a shortened lifespan or damage, and any resulting damage is not covered under warranty or is not the responsibility of the manufacturer. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 24 months.

Disposal and recycling information:

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated waste collection points set up by local authorities after their useful life has ended. This ensures that WEEE waste is recycled and processed in a way that protects valuable materials and safeguards human health and the environment.
