User manual

Model and Equipment:

Car Charger: Yes
Smart Charging: Yes
Type-C with 5A power: No

Technical Specifications:

Product Name: 3mk Hyper Car Charger 45W™
Input (V): DC 12V-24V
Output (V): DC 5V

USB-C Output: max. PD 3.0 45W
USB-A Output: max. QC 3.0 45W
USB-C-A Output: max. 22.5W + 22.5W
Operating Temperature: 0-45°C

User Instructions:

1. Insert the charger into the car's cigarette lighter socket. The white LED will light up when the device is ready for use. If the LED does not light up, try reconnecting the charger and check that the electrodes are making contact.
2. Connect one end of the cable designated for charging the device to the PD or USB port of the charger, and the other end to the device.
3. Ensure that the charging cable is properly connected and that the device is compatible with the charger.

Precautions:

- Before using this product, read the user manual of the device. Warning: improper use may damage the product.
1. Do not store the product in high-temperature areas, strong light, or strong magnetic fields; do not place it in fire or other adverse conditions, as this may cause burns or electric shock.
 2. During charging, the power supply will generate heat, which should be considered a normal phenomenon, the

- product meets national 3C requirements; after fully charging the phone, the temperature will gradually return to room temperature.
3. If an overvoltage, overload, or overheating occurs during charging, to avoid damage, the charging will automatically stop; when the condition stabilises, charging will resume.
 4. The product should not be disassembled, repaired, or modified by the user.
 5. Do not touch the power supply with wet hands or submerge it in water or other liquids.
 6. Please do not use the power supply with products that exceed the output power range of this product to avoid electric shock, burns, or damage to the device.
- NOTE:** Failure to follow the above safety instructions may result in fire, electric shock, damage, or other injuries.

Warranty:

Improper use or incorrect placement of this product by users may result in a shortened lifespan or damage, and any resulting damages are not covered by warranty or exempt from the manufacturer's liability. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 24 months.

Disposal and Recycling Information:

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated waste collection points after their service life has ended, as determined by local authorities. This ensures that WEEE waste is recycled and processed in a manner that protects valuable materials and safeguards human health and the environment.

Declaration of Conformity:

Hereby 3mk Protection declares that the product complies with the relevant Union harmonisation legislation: 2014/53/EU. The full text of the declaration of conformity is available at the following website (3mk.global/manual).
