

Lens Pro Full Cover™

Tempered glass

User manual

EN

Set contents:

- 1 pcs. Lens Pro Full Cover™
- Moist cloth
- Dry cloth
- User manual

Technical specifications:

- Model name: Lens Pro Full Cover™
- Material: tempered glass
- Hardness: 9H
- Glass thickness: 0.04 mm

Instructions for use:

1. Before starting the installation: Ensure that the surface of the device is clean, dry, and free from dust. Prepare installation accessories.
2. During application: Install the glass in a clean, dust-free environment to avoid dirt getting between the glass and the device. Do not bend the glass – it is pressure-resistant but may crack if bent. Align the glass precisely with the edges of the device to prevent it from lifting off.
3. After installing the glass: Avoid applying excessive pressure on the edges, especially when carrying the phone without a protective case. Regularly check the condition of the glass to ensure there are no chips or cracks. Damaged glass requires immediate replacement to avoid injury from sharp edges.

4. In case of damage: If the glass cracks, be cautious when removing it to avoid injury from shards. Dispose of the worn glass according to local glass waste regulations.

Safety warnings

1. Do not modify the glass in any way. Such actions will void the warranty.
2. Use the product only as intended.
3. Packaging material should be disposed of according to local regulations.
4. It is recommended to use the glass in conjunction with a protective case for full device protection.
5. Avoid extreme temperatures that may affect the adhesive used for the glass (e.g., leaving the phone in direct sunlight).

Warranty

Improper use or incorrect placement of this product by users may result in a shorter lifespan or damage, and any resulting damages are not covered by warranty or are excluded from the manufacturer's liability. The warranty covers manufacturing defects and material faults. The manufacturer's warranty is 12 months.

Disposal and recycling information

This symbol on the product, battery, documentation, or packaging indicates that products and batteries should be handed over to designated collection points for waste disposal set up by local authorities at the end of their service life. This ensures that WEEE waste is recycled and processed in a way that protects valuable materials and human health and the environment.
